

Seller Outbound Pilot — for Team Minik

Prepared for Michelle Minik · 30-day pilot · **White-labeled under Team Minik**

THE OPPORTUNITY

Your team has buyer flow handled. The harder, higher-value side is **listings** — the one thing portals and most lead vendors do not deliver. Aureon runs done-for-you seller outbound that books **listing appointments**, and we run it under the Team Minik brand, so it strengthens what you already give your agents.

WHAT THE PILOT IS

We run seller / listing outbound for **3 to 5 of your agents**, in **one market**, for **30 days**, fully managed by us:

- **White-labeled** — every touch goes out under Team Minik / the agent's name.
- **Zero lift for your agents** — we do the outreach; they just take the appointments.
- **They keep everything** — 100% of every commission and every lead we source is yours.
- **Exclusive** — appointments are never shared and never resold.
- Live appointment alerts + a simple weekly numbers report, so you see it working.

WHAT YOU ARE LOOKING FOR AT DAY 30

A clear answer to one question: **did it put real listing appointments in front of your agents?** If yes, we scale it across your network. If not, you walk away having risked almost nothing.

INVESTMENT

Performance-based — you pay only for booked, qualified listing appointments. No long-term contract, cancel anytime. Exact terms confirmed on our call so we size it to the market and your agents.

The system and sourcing are our IP — the pilot shows you everything that matters: the listings.

NEXT STEPS

- 1 You pick **3–5 agents** + the **market**.
- 2 We set up in 3–5 business days and start the 30-day clock.
- 3 Weekly check-in; decision to scale at day 30.

To start: reply with the agents + market and a start date, and I will send the short onboarding (one quick form per agent).
